## **Climate Stewardship Policy**

## 1. Preface

The effects of climate change are reshaping our world, with human activities such as fossil fuel consumption significantly contributing to greenhouse gas (GHG) emissions. These emissions accelerate global warming, disrupt weather systems, and pose challenges to ecosystems and communities alike.

Jupiter Wagons Limited (also referred to as “JWL” or “the Company”) acknowledges its responsibility to adopt sustainable practices that address climate change. The Climate Stewardship Policy (“the policy” or “this policy”) underscores our commitment to reducing emissions, enhancing climate resilience, and embedding sustainability throughout our operations and value chain. Guided by global standards and the United Nations Sustainable Development Goals (UNSDG), particularly Goal 13 (Climate Action), we aim to actively contribute to combating the climate crisis.

## 2. Scope

This policy applies across JWL’s operations, facilities, and processes, extending its partnerships with employees, suppliers, contractors, and other stakeholders. It is designed to promote climate stewardship throughout the value chain and beyond.

## 3. Policy Commitments

JWL’s approach to combating climate change is centered on innovation, accountability, and collaboration. Key areas of focus include:

- **Reducing emissions:** Implementing monitoring systems to track and manage GHG emissions, alongside setting measurable reduction targets.
- **Enhancing resilience:** Identifying climate-related risks and opportunities and integrating adaptive strategies into the Company’s operations.
- **Promoting sustainable practices:** Leveraging clean technologies and energy-efficient processes to minimize environmental impact.
- **Encouraging collaboration:** Partnering with suppliers and stakeholders to ensure sustainable sourcing and logistics.
- **Designing low-impact products:** Innovating products that align with environmental sustainability and meet evolving consumer demands.
- **Exceeding compliance:** Adhering to environmental regulations and striving to surpass legal requirements.
- **Transparency and reporting:** Regularly reporting progress and engaging stakeholders to ensure accountability and trust.

## **4. Monitoring**

The BRSR Committee will be responsible for overseeing and establishing the policy, while the designated coordinators will ensure its comprehensive implementation.

## **5. Review and Amendment**

This Policy shall be reviewed and evaluated as and when required to establish and confirm that it meets the objectives of the relevant legislation and remains effective. The Board has the complete right to make amendments to this Policy in whole or in part, at any point of time without assigning any reason, whatsoever.
